

# Test and Trace Policy

27/07/2020

Following the recent guidelines from The Football Association, clubs and facility providers must support NHS test and trace efforts by collecting name and contact information of all participants at both training and matches.

This information will be stored by Deanshanger Colts FC for a minimum of 21 days in-line with the Government Recreational Team Sport Framework and collected/processed in accordance with the Data Protection Act 2018 and in line with GDPR principles. Any data collected by Deanshanger Colts FC to support NHS Test and Trace will be solely used for this purpose.

By giving consent for children to participate in football at Deanshanger Colts FC, parents are agreeing to the collection of their and their child's data and to fully cooperate with the clubs Test and Trace efforts.

## **Important:**

Coaches and parents need to carefully consider the implications of NHS Test and Trace with their own individual circumstances prior to consenting to full contact in training and matches.

If a player or coach from your team or from an opposition team, which your child has played in the last 21 days, has a positive Covid-19 test, NHS Test and Trace will alert the parent (or coach) and your child / coach will be required to self-isolate at home for 14 days from last contact with the person who has tested positive.

Parents and coaches must consider how a 14-day self-isolation period may impact their work life, child's school life or childcare in general and the club strongly advises all parents and coaches to review the guidance on the following link prior to consenting to participation in full contact football:
